Concerning Tasherifing the Joint Stock Merchants.

Itt being usuall to Tasherif the Rt Honble Compas Chief Merchts yearly att this Season, but they having been no ways Servicable to the Compas affairs this year, as well from their own differences & disagreement as also from the troubles in the Country, which greatly discourages & obstructs all trade, which occation'd our hesitation in doing itt, But considering 'twould bee a great discredit to them, & possibly occation such discontents as might bee prejudiciall to the trade of the place, 'tis therefore agreed that they bee presented with broad Cloth as accustomary, itt amounting to a Small vallue, but that they be reprehended for their neglect and disagreement, and advised & assisted to a reconciliation.

Merchants to be Tasherift.

Walter Steward Petitions to be freed from the duty of a Souldier. Agreed to free him, he paying the Rt Honble [Compas] charge in sending him out.

One Walter Stewart a Phisitian coming out on the Resolution in the quallity of a Souldier, and having had Severall Successfull practices in his profession here, made itt his Petition to bee free'd from the duty of a Souldier, that he might have more time to Study & practice, which in consideration, that there is great occation for him in Town these Sickly times, 'tis agreed that he bee free'd from bearing Armes, provided he pay the Charge &ca the Rt Honble Compa have been att in Sending him out.

A scandall raised on the Pago coyned in this Mint.

There having been lately in these troublesome times & Governm^ts many irregularities committed in Severall places, more particularly att Kisnapatam & Carera, where they have counterfeited our Pagodas with the Same Stamp & weight, but are not three-quarters their vallue, which has brought so great a disreputation upon ours lately Coyn'd from peoples fearing that they may bee those fals ones, itt has been a late practice in Town, & up the Country to advance three ℔ Cent in Exchange of new Pagodas for old, whereas by our Strictest examination wee cannot find the least difference either in fineness, weight or vallue, between those coyned of late years & what formerly, Itt is therefore order'd to prevent the injuries that may accrue to our Mint thereby that the following Declaration bee published by beat of Drum, & affixt upon the Gates of the Citty in English, Portugues, Moors, Gentue and Mallabar Viz^t.

A Declaration to be published.

The Declaration.

Some envious bad people out of prejudice, & a wicked design against this place, have lately raised a Scandall against the Pagodas coyned in this Mint, Some years past, which upon Strict examination, are found to bee justly the Same, both as to weight and fineness, Therefore these are to publish and forbid, any Merchant, Shroff, Chittees, or any other persons whatever under this

Concerning the Siam Ship att Acheen.

The Governour having recd a Letter from Capt Batten att Acheen advising that a Ship arrived there from Siam, under French coulors, about 400 Tonns, 18 Gunns, and 12 Europeans, & notwithstanding they produced a Bill of Sale, that She was bought by the French of the Portugues, but upon enquiry he was enformed by the Seamen that She belonged to the King of Siam, as also the goods on board her, & that he intended to have taken her, but that the Shabander att Acheen declared, that if hee offered to meddle or use any hostillity in their Road, he would have Satisfaction from the English ashoar, which prevented his Seizing her in that place, but that hee intended to wait her departure, She being bound for Pullicherry, but least that he Should fail in his enterprise, she being a large Ship, well man'd and Gun'd, and being Satisfied here, that, that very Ship did belong to the King of Siam, and went under the name of the Eagle, with a black Spread Eagle on her Stern, which gives us great reason to beleive, that the French Coulors, are only a pretence to Save her from our Seizure, Itt is therefore order'd that the Rochester do immediatly Sail for Coodaloor, and ride there in expectation of her from Acheen, that he Seize and bring her hither, to be examined by the Court of Admiralty, and accordingly bee disposed, and for the more expedition, Itt is order'd that what goods she brought from Bengall, bee continued on board till her return, and that if he misses of her, that she then bring our goods from Portonovo, Coodaloor and Conimeer, to Secure them from the dangers and troubles of the Country.

He desires to bee excused to the President & Councill, that he had not paid his respects in writing, but that when he came to Madras, hee would acquaint them the reasons of itt, That had just then the certain news, that Cropley had been att Levo 15 days, & kept a close Prisoner, that when the French are dispatcht, they shall know what they have to trust to, but he fears not, being civilly treated as can expect, That he had Seen the King of Siam's Declaration of Warrs, against the R[t] Hon[ble] East India Comp[a] & their Servants, Liberty to all freemen, that are English, That by these

Mr. Brownes affidavit about the Vizagapa Merchants.

To the Vizagapatam Merchants charge bearing date Aprill the 9[th] 1687 Richard Browne maketh Oath, That upon receipt of the Hon[ble] the President & Councills orders for himself & them (as is mentioned therein att their request) to repair to Fort S[t] George, to have the Same examined, Hee did Summon the Said Merchants & Signified the Same to them, & delivered them, the late Presidents letter to themselves, & likewise commanded them to gett ready to go to Fort S[t] George in convenient time, to vindicate their Said charge, But the greater part denied to have been concerned in any such charge, & that their hands thereto were forged, And as for those that were the authors thereof, being daily pressed by him to proceed to Fort S[t] George to make out their Said charge, agreable to their own request, assuring them that himself or any others they Should desire, Should certainly repair thether, But finding them by many frivolous pretences, to evade their going he (that he might clear his reputation) offer'd to compell them thereto, upon which they promised him a Summe of mony, & offered to give itt him under their hands, that all that they had written was fals, provided hee would excuse their going up to the Fort, & continue to favour & credit them with such

goods, as they Should desire as formerly, which proffer hee waved, acquainting them that 'twas no Small proceedure they had engaged themselves in, to charge him in So high a nature, & to make their applications to the President &c^{a} that both he & themselves might bee order'd to appear att the Fort, that they might have right done them, which favour was now granted them, & that 'twas now impossible for him to clear his reputation (which they had in So great a measure Scandaliz'd) any other way but by their going up to the Fort for that neither the R^{t} Hon^{ble} Comp^{a} nor the President & Councill would bee Satisfied of his integrity, unless both parties were examined upon this matter by the President & Councill att the Fort, & howsoever Slight a matter they made to impeach him, hee Should esteem itt, highly to import him fully to vindicate himself, of this charge, thereby to continue in the good opinion of the R^{t} Hon^{ble} Comp^{a} & likewise in favour of the Hon^{ble} President &c^{a} and So order'd them under the charge of Severall of the Factory Peons, & compell'd them to come hither, notwithstanding their many delays & contrivances to avoid itt, Now as to the particulars alledged in the abovementioned charge by the aforesaid Merchants, he further maketh Oath, That he never (as he remembers) pretended that the R^{t} Hon^{ble} Comp^{a} sent to Vizagapatam Copper, Tutanague, Tin &c^{a} goods therein Specified, neither did hee ever threaten the aforesaid Merchants to deliver them, or any of them, over to the Moors Government, if they did not comply with him, to take off goods as they alledge, but has often rescued them, out of the hands of the Government, when pretences has been upon them, And that hee had made an agreement & Sold the Said goods to two Bimlepatam Merchants, which the Vizagapatam Merchants understanding by their request, & importunity prevailed with him, that they might have the Said goods, att the rates & tearms agreed with the Bimlepatam Merchants, which were delivered them accordingly & no otherwise, being to the amount of Pag^{o} 5000 in the year 1685 & in or about the month of February 168$\frac{5}{6}$ Some of the above said Merchants of their own accords often Solicited him, for Severall goods he had then by him, & att length prevailed with him for them, about the rates mentioned in their charge, and they were weighed & delivered them, but when the other Merchants had notice thereof, they would not rest Satisfied unless part were delivered them, in which they were So very urgent, & those that had bought them obstinatly refusing them any Share therein, affirming that they had fairly bought the Said goods, that the difference & contention between them, about the Same, grew so high, that hee to oblige them both, thought convenient to order the goods to bee equally devided among them, provided they would bee equally engaged one for another, which before could never prevail with them to do, & that they would therewith commence an Investment of Callicoes in the usuall Sorts provided by them, & to put our Investment in a good forwardness they had of him in mony & goods to the am^{t} of about 16600 Pag^{o} and also upon the arrivall of the Comp^{as} mony, which was about 19000 & came about 6 months after (as he remembers) that was likewise delivered them, So that they rec^{d} about 35700 of which the R^{t} Hon^{ble} Comp^{a} had the choice of the goods brought in, in lieu thereof, and the Merchants certainly made a good advantage thereby, having the abovesaid goods about 12 months without any Interest, & for the greatest part of the Said goods, they gave no more, that what hee has Severall times Since Sold att for ready mony, & hee being forced after about 12 months time, to take the turned out Cloth, for his mony, att Such rates that hee lost considerably by them, has never Since in that manner dealt with them, thô often importuned by them, and presumes they have on that Score, exhibited the Said charge against him, not having in any other manner offended them, that hee remembers, neither can they in reason pretend the aforesaid goods were forced upon them, when they quarrel'd among themselves in So high a manner, who Should have them.

Streets & buildings in the Gentue Town out of order: A Law to bee made.

The Governour upon a late Survey of the Gentue Town finding the Streets & buildings much out of order, occation'd by the late mortallity & famine, Itt is agreed & order'd that the following Law bee made & published for those Inhabitants Suitable to their condition & circumstances, as was lately made for the Inhabitants of the Christian Town Viz[t].

The Law.

That two persons dwellers in each Street, bee appointed by the Justices to bee overseers thereof, for collections of all assesm[ts] thereon, & keeping the Streets in repair & good order, and there being many places in the streets run to decay, & others vacant to the great injury, inconveniency & annoyance, of the place, therefore that itt bee published, That if all Owners & proprietors thereof, do not in Six months, decently repair, build or well fence the Same in, with a Substantiall wall, or Sell them to those that will that they bee forfeited to the R[t] Hon[ble] Comp[a] to bee Sold or disposed of, as they shall think convenient.

Goods to bee exported free having once paid Custome.

Itt being the R[t] Hon[ble] Comp[as] late orders that there should bee no distinction, between English, Europeans & Native Inhabitants but that their Customes, should bee equally alike as well in importation, as exportation, which having not yet been particularly declared, Itt is hereby order'd that itt bee anexed to the Rules of the Custome house, that all Sorts of goods imported by any person whatever, having once paid the Custome of five ℔ Cent, may freely export the Same goods, when they please without paying further Custome.

Mr Browne lays down the Chiefship of Vizagapatam.

M[r] Richard Browne being Senceible of the Councills dissatisfaction, of his late mannagment of Vizagapatam, came this day before us, making itt his request, (since his late Services had not been so acceptable to us, as he designed, that hee might bee appointed to some other place, according to his station & Merrit. & that wee would think of Sending Some other person to Supply the Chiefship of Vizagapatam, to whom hee wisht better Success then he had, which considering & the late differences he had with the Merchants &c[a] there, thô hee has cleared himself, from their charge, by M[r] Charltons & his own Oath, yet we Judge itt more for the R[t] Hon[ble] Comp[as] Intrest, & improvement of the place, to send some other experienced person to mannage the affair of the Government of that Town & trade, which wee think is capable, of greater improvment, then has been yet made thereon, Also upon perusall of M[r] Brownes acc[ts] wee find he has charged Pag[o] 337 for two Country guard Ships to Secure the R[t] Hon[ble] Comp[as] Stock & treasure in that Factory from the troubles of the Country, which appeared then to bee very dangerous, but doing this without our particular order, or any Consultation among themselves, they also appearing to bee his own Ships, & as well to Secure his own estate, as the R[t] Hon[ble] Comp[as] Itt is thought fitt & agreed that hee bee allowed but Pag[o] 100 of the said Pag[o] 337.

ye Rt Honble Compas lettrs were read & consider'd on.

The Defence and James arriveing into this road this morning betimes, and the box of Letters sent ashoare, This morne were opened and the R^t Hon^ble Comp^as Generalls of the Septemb^r the [*lacuna in the original*] October the 25 Janu^y and the 6 of Febru^y were read and discourst on.

And whereas the President concluded it absolutely necessary to keep as secret as possible the Bengall letters and orders sent by the Princess, in Consideration of the great prejudice the devulgeing such a designe might have been to the R^t Hon^ble Comp^as affairs and possibly have prevented the Mogulls granting his Phyrmaund to the Generall, as also other priveledges we were then treating about at Coart and w^th the Goverment here; the news also might have reach't Bengall before the arrivall of the Princess there and soe allarmed the Moors to a greater preparation to defend y^os places, we design'd against; for these reasons the Goveñour only imparted those letters and orders to M^r Higginson & S^r John Biggs who jointly and sent those letters to Agent Charnock, ℔ticularly with advice to be as private therein as possible till the arrivall of the defence least they or y^e design should suffer by the discovery, but being wholly referr'd to y^m we could give no other orders or advice therein, & therefore of noe necessity to acquaint the Councill therewith, But y^e buisiness being now to come into debate here, all those said letters, were read but nothing concluded thereon till Cap^t Heath and M^r Thomas Gray's comeing ashoare, when we shall fully debate and resolve what most necessary & expedient therein, The Govern^r also enjoyn'd the Councill by the Oaths they had taken to be secret in y^s affair, since the devulgeing is, may still be of prejudice to the R^t Hon^ble Comp^as Affairs, the Mogull haveing his spies here for intelligence & therefore, ought to be y^e more cautious of our discourse, which y^e Councill faithfully engages.

Ship Defence to be unladen.

The Warehousekeep^r M^r Jn^o Littleton is order'd to employ all the boats for the unladeing the Defence that she may have a suddain dispatch it being late in the season, and this day to take ashoare the Chest of Gold and box of Mace &c^a & on Munday half the Cordage and as much of the sea Coals as the time will ℔mitt haveing great occasion for them.

The Defence and James haveing brought us a seasonable brave Supply of Souldiers to the number of 140: lusty men haveing by good providence lost but 12: from both Shipps, whereas the Princess had the misfortune to bury near 50, and it being our great duty and care to preserve them well since they are sent with soe much charge and difficulty, but all provisions being still very scarce and dear, none of the publick houses will be ℔swaded to entertain or dyet them, whereupon the President sending for M^r Troughton late Stew^d prevail'd with him to undertake the Dyetting all the English Souldiers for three months at 60 fanams ℔ mensem each and to provide them sufficient good Provisions as Beef Mutten Pork fish, Pelow and Rice with a dram and Punch somtimes 2 meals each day, to eat at the new Lodge, dinner to be presisly at 11: a clock, and Supper at Six, at which times the bell is to ring w^n they are to appear upon the penalty of Fasting, except they are upon duty on the out gaurds, then their serv^ts are to fetch Victualls, two officers, is also appointed to keep good orders among y^m and the Warehousekeeper is order'd to let M^r Troughton have w^t rice he has occasion for at 1½ Meas^r ℔ fañ and Bengall Butter at 6: Pag^s ℔ Jarr: and w^t other provision the Comp^a can spare at the market price & each pay day the Paymaster is first to

Generall from the Rt Honble Compa ꝑ used & debated concerning Bengall. Returning to our debate upon the Bengall Affair and the R[t] Hon[ble] Comp[as] Scence and orders concerning it, w[ch] first is their ill opinion of, and displeasure against the Conduct of their Agent and Councill in the Bay, in not following and obeying their orders in the takeing Chettegam &c[a] which they are still very pressing for, and desirous of, and possitively resolved, to have a fortifyed settlement, in Bengall, by fair means or force, or else to withdraw their servants and trade thence, upon Consideration whereof, and the expressness of their other designes, and orders, relateing to this Affair, as also their good opinion of the abillity and fidelity of Cap[t] W[m] Heath reposeing such trust and confidence in his conduct that they choose rather soly to rely on y[t] then the irresoluteness of the Bengall Gentlemen, It was therefore according to the R[t] Hon[ble] Comp[as] order proposed to Cap[t] Heath, to goe with his Ship directly to atack Chettigam, and that we would give all possible assistance therein, and would write by a Porteguez Ship now going to Bengall to the Agent and Councill to bring all their Ships, Vessells men &c[a] to his assistance; w[ch] Cap[t] Heath did not refuse, but declared that he doubted, 't would be to little purpose, and considering the Dorothy is not yet arrived to accompany her, and all our Country Vessells disposed upon their severall Voyages, the season growing late, nor can we procure sloops or sufficient Pylotts for that designe. 'Tis therefore our Opinion also and agreement that the Defence goes directly for Ballasore, w[th] two Comp[as] of Souldiers consisting of 60 each which is all we can possibly spare, also all the Armes Ammunition stores and Provisions can be afforded being Very bare of all, wanting Swords to arm the Souldiers, now arriv'd by the Defence and James, that upon Cap[t] Heaths arrivall at Ballasore, he immediately proceed to the Agent & Councill at Chuttenutta, takeing all the Command[rs] of the English Ships with him, that upon his arrivall he delivers the Agent &c[a] the R[t] Hon[ble] Comp[as] and our Orders and a Councill be called consisting of the Agent &c[a] and all the Command[rs]; where the whole state of the Comp[as] affairs and their proceedings is to be duely recounted, and their Condition, fforce; stores of armes ammunition and provision w[th] all other Necessaryes circumstances duely represented, as also the Constitution of the present Government, their Inclinations and Power, with the strength of Chuttegam & forces therein & access thereto, for the Europe ships; and these severally to be fully discourst and debated in Councill from whence Cap[t] Heath is impowred to draw a conclusion, and make such resolves thereon as he shall Judge requisite for the Honour and Interest of the R[t] Hon[ble] Comp[a] and the good of their affaires, and future trade in Bengall which the Agent & Councill and all Command[rs] and officers of Ships Vessells & Souldiers, are duely to obey his orders therein and Aid and assist him in the prosecution thereof, to their power, and if they cannot conquer and maintain Chuttegam or some other fortifyed place in the Bay to secure our people and trade from future Injuries and exactions then to endeavour it by treaty, writeing the Nabob of Dacca, that except he will grant the R[t] Hon[ble] Comp[a] a fortifyed settlement to secure their Estates, and the lives of their servants from Rapine distruction, they

have order'd you to depart frõ their Countrey and wholly to quitt their trade and to repair our Losses where we can, and if neither of these Courses, proove effectual for the obteining such a fortifyed settlement as the Rt Honble Compa requires, then Capt Heath is to summon all the Compas servants and other English to repair aboard their ships wth the Rt Honble Compas concernes as well Treasure, Goods, stores Provisions &ca useing ye uttmost endeavours to lade all the Ships, with Goods, Grain, and provisions, consigned to this place and to come directly hither except you can dispatch one or two for England or Persia and one to touch at Vizagapatam to bring up their goods from thence.

10 Chests Dollrs order'd to continue aboard for Bengall.

And to supply their occasions in the Bay the Warehousekeeper is order'd to continue 10 Chests of Dollars aboard the Defence, half the cordage to supply the Shipping also the Lead and half the sea Coals, and to hasten the unladeing of the remainder of her Cargo.

The Chest of Maces &ca brought ashoare.

The Chest wth Maces Sword and Silver Oar were brought ashoare, order'd the delivery of it to Sr John Biggs as also the Charter for him to peruse and Coppy and draw a supplymentall Charter agreable to the circumstances of this place if there be occasion, and to give us an Abstract of ye Laws contein'd therein and to prepare wt necessary for ye settling the Corporation at the time appointed.

The Councill being duly Summon'd.

Cowl for St Thoma procur'd. Notwithstanding the many difficulties we have had about the renting of S^{t} Thoma, The President have by private correspondence wth the Governours of the Countrey, Mahomed Sadeek &c^{a} procured their Cowle or lease for y^{e} renting the Town and Customes of S^{t} Thoma & the adjacent towns as farr as S^{t} Thoma's Mount notwthstanding the Porteguez buffs and noise of the Mogulls Phyrmaund, for their free enjoym^{t} of the town &c^{a} w^{ch} has cost them by their Envoy Preist at least 7000 Pag^{s} to the Mogulls officers and 'tis now reported their mighty Phyrmaund proves only a compliment referring them to former Customes in the King of Golcandahs time and to agree wth the Governm^{t} about S^{t} Thoma as well as they can, wherein we also haveing an equall title and priveledge, have Improv'd it beyond them and rented the said places, upon the following tearms, Viz^{t} :

The Conditions. That we have the free and sole Government of the Town Customes and all other Revenues of S^{t} Thoma for five years from the first of June last, for which we are to pay the yearly Rent of 3,800 Pag^{s} at three equall Payments, that is each 4 : months, one third thereof w^{ch} is two hundred Pag^{s} less then the Portuguez paid and we formerly offer'd. In consideration of w^{ch} kindness & disappointing

the Portuguez. We have agreed as formerly to Piscash the Seer lascar w^th^ one thousand Pagodas to be paid him the 1^mo^ October 1689 : provided we unmolestedly enjoy the Governm^t^ of S^t^ Thoma &c^a^ to that time and that he uses all possible means to procure the Mogulls confirmation of the said lease for as long a terme as possibly. But if the Mogulls or any other power or means the Governm^t^ should be lett or wiested from us in such case we are to pay no rent but y^e^ Duan are to take the Proffitts from the receivers and the R^t^ Hon^ble^ Comp^a^ accountable for nothing thereof.

And in Consideration of our present difference w^th^ the Mogull and his aversion to us and our Governm^t^ as also haveing order'd that these Parts should be under the same Rules and Governm^t^ as in the King of Golcanda's time, who had given his Phyrmaund to Verona for the renting S^t^ Thoma w^th^ its adjacencyes w^ch^ by virtue of the said order still of some authority ; as also that we might not too much exasperate the Portugueze in their loss and disappointment of a place they retain a most superstitious Veneration for, which possibly might provoke them to mutiny or rebellion at least some disturbance or mischeif, they being at present two thirds of our Souldiers and at least 6 : for one to y^e^ English Inhabitants, all w^ch^ Considerations induce and prevail w^th^ us, to take the Cowle in China Vencatadry name for the R^t^ Hon^ble^ Comp^as^ acc^t^ which is accordingly done and two Cowls deliverd us one from Mohomed Sadeek Seerlascar of all this Country and the other from Apogee Pontulo Governour of the Countrey from Sadraspatam to Pollicat, who tomorrow is to deliver up the charge of S^t^ Thoma Government to our Bramenie, tyeing the green leaves and performing all other accustomed Ceremonies.

Concern'ing ye Quit rents.

The Collectors of the Revenues demanding ye ground Quitt rents according to a rent role drawn & order'd to be rec^d^ by them, severall of our Inhabitants produced Deeds under Agent Masters &c^a^ hands & y^e^ R^t^ Hon^ble^ Comp^as^ Seal for a full and free sale the ground their houses stand on in behalf of the R^t^ Hon^ble^ Comp^a^ the severall summe being brought into thoir Cash, The Legality whereof, being debated in Councill, 'twas concluded to be firme and binding to us, being confirm'd by the Government and Company's Seal, but for the great conveniency and uniformity of the Governm^t^, Tis agreed and order'd, that M^r^ Wavell, Renter Gen^ll^ doe endeavour to prevaile with Those severall people to deliver up their deeds upon payment of the severall Summs they paid the R^t^ Hon^ble^ Comp^a^ in Consideration thereof, and that all may be brought under the Same order of Quitt Rents.

Office of assurance to be at ye Custome house.

Arguments us'd w^th^ ye Merchts for an Investmt.

After many tedious disputes, Perswasions and trouble about settling the Acc^ts^ and differences among the late Joint Stock Merch^ts^, w^ch^ has been labouring, these 5 years in the late Presidency to accomodate, but to little purpose that both the Merchants and Stock were in such confusion & distraction, that the one was near dismissed from trade to the great prejudice of the R^t^ Hon^ble^ Comp^a^ affairs and the Generall trade of the Citty which depended mostly on them, as being the Cheif Merch^ts^ and traders therein, and their Joint Stock being diverted from its first designe and foundation of being a fund to supply and Secure the R^t^ Hon^ble^ Comp^ns^ trade with them, but upon examination found to be employ'd and engaged on Particular Acc^ts^ and trade, little or nothing remaining but badd debts, and intreagued Acc^ts^ among them w^ch^ were noe wayes responsible or capable to indemnifie their obligations to the R^t^ Hon^ble^ Comp^a^ in case of any disappointm^t^ or failure in their contract,' Twas therefore judged unsafe to make any Contract with

them, till we should see them, their acc[ts] and Stock better settled the first whereof being effected, we prevailed with them to subs[c]ribe a new Stock of 20000 Pag[s] consisting mostly of the same Merchants, that were formerly employ'd, but under much better regulations and Methods, which being agreed and Subscrib'd to, and their said stock paid into their Casheers, we proceeded upon contracting w[th] them for an Investment in such goods as were required and enlisted by the R[t] Hon[ble] Comp[a], wherein we found great difficulty & backwardness, they refuseing the takeing off Europe goods or to provide those Course Callicoes we required, except we would Take a proportion of fine with them, alledging that they should be great loosers by the Europe goods, near 50 ℔ Cent instanceing that the Broad cloth w[ch] cost them 22 : they sold for 10 : and 11 : Pag[s] the half Peice, and other goods proportionably, which every day proves the trueth of, in our Bazarrs. Then for Course goods they got little by them formerly, but expected to loose by them now, by reason of the fewness of Weavers, the scarcity of Cotten, and the troubles, and unsettledness of the Countrey running great hazzard in sending and investing out their money, where the Governm[t] is soe alterable & exactious, soe great, almost monthly changeing their governours since the Mogulls conquest and each to be gratified willingly or forceably, w[th] many other argum[ts] of the continued scarcity of graine and consequently of Labour they endeavour'd to avoy'd engageing upon any Investm[t] this year, but on the contrary the President represented the R[t] Hon[ble] Comp[as] occasions, and their obligation to furnish them, in consideration of their former benefitts, & the continu'd peace and safety they enjoy'd under their Protection and governm[t], as also for the reputation of their new stock, and gratitude to the late honour done them in the Corporation, and the great troubles we had taken in settling and reconcileing their confused Acc[ts] and differences, without w[ch] they would have been great Sufferers, all which was so prest, that at length prevail'd w[th] them to contract for an Investm[t] of 40000 Pag[s] in goods according to the R[t] Hon[ble] Comp[a] List & notw[th]standing all their objections, also to make an Abatem[t] on y[e] prices of their Callicoes, assureing them of the R[t] Hon[ble] Comp[as] kind acceptance of their service and future favour to them, & also that they might expect more agreable goods hereafter but the Comp[a] being loaded w[th] such quantityes of them were the reason they required noe fine goods now, but no doubt would, when those by them were disposed.

The termes of the Contract as followth Viz[t]. Agreement.

M^r John Stables, Cheif &c^a at Vizagapatam, haveing advised us, of their very good Contract wth their Merch^{ts} for the Course goods required for the am^t of Pag^s 20000 which encourages us to send them down more money but y^t the wayes are so pestred with theives, 'tis too dangerous to send it overland, and to send it by sea is also hazzardous from the stormy season we may expect, so that tis resolved the safest to deferr it till December, w^n we shall have many good oppertunities by sea, and by y^t time we hope they will have compleated their Investment and be ready for another, in the mean time assureing y^m of 20000 Pag^s with a proportion of Europe goods, in Decem^r next, they writeing us, that they are not able to provide more goods by that time, then they have already, undertaken and something doubtfull of their Merchants, compleating that from the great troubles and many obstructions in the Countrey but promise their uttmost endeavours for it.

There offerring a Countrey good new teak vessell for sale about 180 Tonns, & the great occasion we have to send one to the Wst Coast according to the R^t Hon^{ble} Comp^{as} orders by the Defence 'tis agreed & order'd, y^t the Paymaster do buy her for the R^t Hon^{ble} Comp^{as} Acc^t at a publick sale, none of their Hon^{rs} being here, nor any expected to arrive this season, nor any other procureable fitt for this occasion and service.

Being advised by severall Masters and Pylotts here that our Shipps may very well gett to Atchein this monsoon, and being the Windermost port of that Island; Tis therefore thought necessary and convenient that the Dorothy Friggat do goe to Atchein in Quest of the Mogulls and King of Syam's Shipps, hearing they intend to send 2 small ones, to lye in that Port in expectation of our Ships, & better to strengthen & encourage against those they may meet with, Tis orderd y^t 20 Soldiers be sent on each Ship, well arm'd & fitted, as well to defend as to supply y^e West Coast, where they are to leave y^m upon their returne and haveing a considerable quantity of Bengall Oyle and butter, that wee cannot sell well here, and wast & decayes much by keeping, It's therefore thought best to send one hundred of Oyle, and fifty of butter, to Atchein, upon the Dorothy Friggat, it bearing a good Price there, also thirty Jarrs of each on the other Ship to Bencolen, also Rice &c^a Graine.

Dorothy Friggat to go to Atchein, in quest of the Mogulls & Syamr Shipps.

Survey of ship Rochester.

Survey of Ship Rochester y[e] 7[th] December 1688.

Whereas the Hon[ble] President & Councill haveing orderd a survey to be made upon the Ship Rochester, Cap[t] John Bromwell Commander. In pursuance to said order wee the Subscribers came on board the Rochester, searched & veiw'd her in all Parts within board, fore and aft between decks, the Eslope and the hould and find her in every part firme and sound and Very strong, there being neither Beam, knee, standar or bolt in her budged or started, which we narrowly inspected.

And haveing Veiw'd into her Larboard Bow where her old leak was, we find the same to be well mended firme and strong as any other part.

Her main mast a little under the Maintop we find to be fished, Her foreyard being broak, we find to be secur'd and both to us appear to be firme and strong, her Bowspritt being disabled must be taken out and repaired which the Carpenters of said Ship doe promise to effect in a short time.

And haveing gone round her without board to Veiw her sheatings, as much as could be seen by us above the water, find the same to be mended in many places with peices of deal boards about the Wales.

And when her Bowspritt is well and firmly mended & fast and well sett, we say upon the whole, according to our best Judgement & understanding, that she is a fitt Ship to adventure mens lives and Estates upon, for such a Voyage as from hence to England.

Ship Williamson arriveing last night, with advices from Bengall and Vizagapatam, wherein the letter from the Agent and Councill and Capt Heath, doe tell us that the Capt has not yet possitively determined whether to goe upon the designe of takeing Chettegam or not, but supposed they were inclined that way, if they could not make a peace according to the Rt Hon^ble Comp^as orders, but the Capt seems doubtfull of great difficulty therein by reason of the Shallows on that Coast, as we are, that their actions at Ballasore, has alarm'd the Nabob to encrease his forces there, being reported they are 10,000 strong in the ffort of Chittegam.

Being much disappointed of the quantity of goods, wee expected from Bengall from the great stock of mony and goods they have had near 14 months by them with our often repeated advices and desires to invest it, for the early ladeing and dispatching of a Ship for England but to our sorrow have sent us but 363 Bales of goods and those not rightly sorted nor Invoiced by reason as they write us of their suddain leaveing the towne of Chootalootee, sending up Mr Meverell &c^a to resort, pack and Invoice y^m, Tis therefore orderd that the said Bales be brought ashoar with all expedition, & accordingly sorted and embaled by the said Mr Meverell &c^a Bengallers, and one of our Godown to inspect them.

Mr John Littleton Warehousekeep is order'd to unlade the rice Gunnyes Ropes, and haveing a great quantity of butter, Oyle here tis order'd that the butter now sent us be traverst aboard the Dorothy for Atchein and the West Coast, it being not Vendible to any proffit here by reason of its rankness.

Upon Debate what shipp to send first to England, in consideration that Shipp Rochesters Charterparty time will be expired the 20th January next, agreed and the Capt resolved laden or not laden to proceed for England, The Capt engageing to fitt and man her well & be ready to take in goods in 6 or 8 dayes, and y^e Williamson, haveing yet twelve months time to serve in the Country and in all appearance in noe better Condition, neither in men or repair then the other, tis therefore agreed & order'd that Ship Rochester be laden and dispatcht for England with all possible expedition, and that the Bengall goods and Permissive trade upon y^e Williamson be traverst aboard the other, except those order'd ashoar to be resorted and Invoiced; and that the Warehouskeep do hasten the Merchant's bringing in and sorting their goods, and that advices be sent to the Southern ffactory's to forward theirs, that she may be dispatch't early for the saveing of her Passage.

Some Persons desireing to be insured upon Shipp Rochester for England, according to the Rt Hon^ble Comp^as orders, and libertyes granted in that Affair, Mr Gray Register of the Insurance office is order'd to make ready what Pollicyes are desyred at the rate of 5 ℔ Cent and not under.

Capt Heath haveing sent us severall ffrench Officers and Soldiers from Bengall, which were by him taken there, order'd that both the Persons and Shipps be referr'd to the Coart of Admiralty, and there to be examined and adjudged according to Justice.

And there not being sufficient goods procureable in the Countrey to lade the Williamson this season for England, by reason of the Warrs and troubles in the Countrey and the great want of weavers, ⅔ of them being dead & removed by the late famine & Pestilence, & not being yet able to Perswade ours, the Conimere or Porto Novo Merchants to engage in a further Contract, they finding great difficulty

and loss to comply with their formers, tis therefore thought best and most for the Rt Honble Compas Interest, to send the Williamson for Persia, with the 800 Baggs of Sugar now brought from the Bay, and what freight procureable, which we hope may amt to a full Ladeing, and a considerable Proffit from four Shipps expected hither this month from China with Sugar &ca goods proper for Persia, tis therefore orderd that bills be putt up to give notice of her intended Voyage, to Sale by the 10th february, and that all Persons have liberty to freight on her at the accustomary rates.
